GASTROTOP®

THE QUALITY BRAND FROM THE GEV GROUP

Robustly manufactured and with a long service life; these are the characteristics that mark out the quality of the GASTROTOP® handsprays.

The regulator body and valve body are high-quality brass and the surfaces are mirror-finish chrome. The dual-wall, spiral hose is approved under the German regulations governing plastics and drinking water. It is made from stainless steel and has an EPDM inner hose. All GASTROTOP® fittings are equipped with non-return valves certified by the German Gas and Water Association. These handsprays are durable and can be operated with a minimum of effort.

Top quality and ergonomic design make the GEV GROUP brand the first choice among premium handsprays.

GASTROTOP® is a brand of the GEV GROUP.

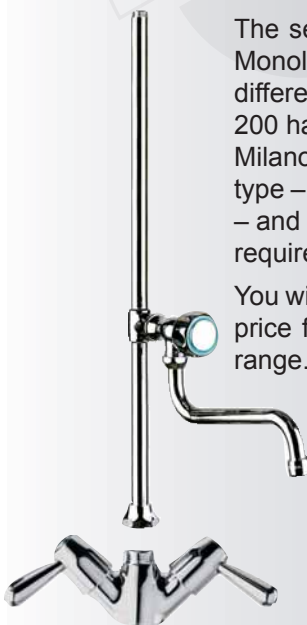

GASTROTOP®

MONOLITH

WIDE SELECTION AT AN ATTRACTIVE PRICE

MONOLITH

MONOLITH
page 8

The selection available from the Italian manufacturer Monolith is extremely impressive: A wide range of different components can be combined to form some 200 handsprays. Just choose from the Venezia, Milano or Udine handspray models, select the handle type – triangular, full-round metal, cross-head or lever – and then combine these with the regulator type you require.

You will be sure to find the right handspray at the right price for any of your catering needs in the Monolith range.
